everythinghappensforus.com

Hey, it's Jim. You took the first step by being here — that already puts you ahead of 90% of people. This checklist is your roadmap to the exact secrets that separate struggling affiliates from the top 1%. Check each box as you implement it. Progress, not perfection.

SECRET #1

Secret #1: Master Your Mindset First

The top 1% treat affiliate marketing like a real business, not a lottery ticket. They commit to consistency over 90+ days before expecting results.

- I commit to treating this as a real business
- I will publish content consistently for 90 days
- I will measure progress weekly, not daily

SECRET #2

Secret #2: Promote Only What You Believe In

Top affiliates only promote products they use or genuinely believe in. Authenticity builds trust. Trust drives conversions. Period.

- I have identified 1-3 products I genuinely believe in
- I have tested or researched my affiliate products
- I only promote products I would recommend to a friend

SECRET #3

Secret #3: Build Systems That Work While You Sleep

One video, blog post, or email sequence can earn commissions for years. Stop trading time for money. Build assets that compound.

- I have at least one piece of evergreen content live
- I have an email capture system in place

I am building a content library, not one-off posts

SECRET #4

Secret #4: Audience First, Sales Second

The biggest mistake beginners make is leading with the link. Top earners give value first, consistently. The sale is a byproduct of trust.

My content answers real questions my audience has

I give value in every piece of content before any CTA

I know my audience's #1 pain point

SECRET #5

Secret #5: Track Everything and Double Down

Top affiliates are ruthless with data. They know their click-through rate, conversion rate, and earnings per click. Cut what fails. Scale what works.

I am tracking clicks on all my affiliate links

I review my analytics at least once per week

I have identified my #1 performing content piece
